~~XXXXXX~~ Incunabula

Thank you for the Doorenbos article.

You may want to look again at my ancient reviews, which cite some other possibly relevant literature connected with Doorenbos.

And what do you think might be said today about 'paragglutination' -- where does ~~Proteus~~ Proteus OX-19 get its rickettsial-crossreacting antigen; and is there anything to the heterophile antigen story?

July 19, 1971

See Physiol Rev 32: 403-430 1952
esp. pp 420

Heredity 2:145-198 1948 @183-4

Ann Rev Microb 4:1-22 1949 @17-19

and Am Scientist 44:264-280 1956.

P.S. You may (correctly) infer from the last reference that I did not just discover the SanFelice article; I have been waiting for some time for the Eklund.
